

ZAIN UL ABIDEEN

Full-Stack Developer | CS Student

Islamabad, Pakistan • zaynbu269@gmail.com • github.com/ZAYNINFINITY • linkedin.com/in/zain-ul-abideen-429735231

PROFILE

CS student at PAF-IAST with experience building full-stack web apps. Shipped a real-time collaboration platform, live e-commerce site, Chrome extension, and cross-platform apps using React, Node.js, Express, MongoDB, and Socket.io. Strong in OOP, data structures, API design, and OAuth authentication.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, Python, PHP

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Flask, REST APIs, Socket.io

Databases: MongoDB, MySQL

Auth & Security: OAuth 2.0, Passport.js, Session Management, JWT

Tools: Git, GitHub, Vite, Capacitor, XAMPP, phpMyAdmin

Concepts: OOP, Data Structures & Algorithms, Real-Time Systems, API Design

EXPERIENCE

Frontend AI Engineer | FlyRank July 2026 – August 2026

- Built and maintained front-end features for FlyRank's AI-driven SEO platform
- Worked with React and modern JavaScript frameworks on production UI components
- Collaborated with AI engineers and senior developers on platform features

Web Developer & Venture Intern | TEKNEFY (Robotics World) July 2025 – September 2025

- Contributed to web development tasks and feature implementation within a cross-functional team
- Participated in debugging sessions and code reviews, applying professional development practices

PROJECTS

Collaborative Workspace Platform

Node.js · React · MongoDB · Socket.io · Chakra UI

- Built a full-stack real-time SaaS platform with live chat, document collaboration, and Kanban board with drag-and-drop task management
- Implemented OAuth 2.0 authentication (GitHub + Google) via Passport.js with bcrypt password hashing and session management
- Designed 20+ RESTful API endpoints and 15+ React components; achieved 75%+ test coverage across backend and frontend

ZSE Store

React · Node.js · MongoDB · WhatsApp API

- Built a live e-commerce site for a local sanitary and electric products business
- Implemented product catalog with brand filtering, search, and responsive UI
- Integrated WhatsApp order API for direct customer communication

ScrollStreak

JavaScript · Chrome Extension · HTML/CSS

- Built a Chrome/Edge extension that tracks Instagram Reels watched with a live counter overlay
- Added friend duel system with leaderboards and weekly Wrapped stats
- Published on Microsoft Edge Add-ons store

Car Auction Management System

PHP · MySQL · HTML · CSS

- Designed relational database schema and implemented backend logic for auction listings, bidding, and user management
- Integrated frontend with backend end-to-end, handling CRUD operations and data integrity with MySQL

EDUCATION

BS Computer Science 2024 – Present

Pak-Austria Fachhochschule Institute of Applied Sciences and Technology, Mang, Haripur, KPK
